GAME AUDIO

GRAB GRAB: Composer & Sound Designer
06/2026 – present

2D multiplayer arena game · music, SFX, mix & Wwise · Godot · in development

▶ Watch the gameplay + Wwise session Instagram @grabgrabgame

- **Interactive score, composed and implemented in Wwise**: horizontal re-sequencing across several playlists
- **Vertical intensity layers** driven by an RTPC tied to the match clock and sudden death; reversed music for a character's ultimate
- **Custom SFX and sound library**: grabs, throws, impacts that escalate with combos, surface-based footsteps, ambiences and a crowd that reacts to the match
- **Mix**: loudness aligned in LUFS, attenuation per sound family

SKILLS
